FALL PROTECTION FOR TOOLS

GRAVITY DEFIED

3M™ DBI-SALA® helps to make work environments safer and more productive by drastically reducing falling object incidents resulting in personal injury, equipment damage, and tool loss.

Drop prevention solutions by 3M™ DBI-SALA® are designed with industry in mind, and are third-party tested in the harshest possible conditions.

Attachment Points from 3M™ DBI-SALA® make it possible to tether virtually any tool in a matter of seconds without defacing or structurally modifying tools. Once an attachment point has been installed on a tool, a 3M™ DBI-SALA® fall protection for tool lanyard can be used to tie the tool off.

Drop Proof Your Workplace

- Dropped objects result in lost productivity, tool loss, and property damage
- Every 10 minutes, there is another OSHA dropped object recorded*
- “Struck by” incidents are the 3rd highest cause of death in the workplace*

* Bureau of Labor Statistics

When dropped from 200 feet, what does the impact of an 8lb wrench look like?

Product Categories

Attachment Points

Attachment Points from 3M™ DBI-SALA® make it possible to tether virtually any tool in a matter of seconds without defacing or structurally modifying tools. Once an attachment point has been installed on a tool, a 3M™ DBI-SALA® tool lanyard can be used to tie the tool off.

Tool Lanyards

3M™ DBI-SALA® tool lanyards and tethers are suitable for virtually any tool. Hard hats, radios, hand tools-- even tools weighing up to 80lbs!

Tool Holsters

A number of belt and harness holsters are available that are designed to be used with popular hand tools like pliers and wrenches, while more specialized holsters allow tools like cordless drills, tape measures, radios, and even bottles to easily be tied off to a person.

Tool Pouches

3M™ DBI-SALA® tool pouches are built specifically to prevent dropped objects. Tool pouches are available in a number of variations allowing for use in any craft.

Spill Control Buckets

Only 3M™ DBI-SALA® safe buckets are designed specifically for drop prevention. All safe buckets are engineered with a built in closure system that helps prevent dropped tools and objects.

Wristbands

3M™ DBI-SALA® wristbands are designed specifically for tool drop prevention and to facilitate work at height. A number of tool lanyards are compatible with Python safety wristbands, making it easy to tie off tools while at height.

Tool Belts

3M™ DBI-SALA® tool belts are designed with tool drop prevention in mind. A wide selection of tool belt holsters, tool lanyards, and tool pouches are compatible with Python Safety tool belts.
